

Instructions

- 1) Create a folder on your account for this course.
- 2) Download from moodle the 4 project files. Go to Documents -> project.
 - i) rec_rel_lin.nb
 - ii) rec_rel_nonlin.nb
 - iii) ca_1D.nb
 - iv) ca_2D.nb
- 3) From about_mathematica you download
 - i) mathematica_commands.nb
 - ii) plots_into_tex.nb
- 4) From about_latex you download the LaTeX-file
plots_into_tex.tex
- 5) Get used to Mathematica. See the other paper. Finish by producing a figure. You save it in your folder as an eps-file.
- 6) Go to the .tex file and modify it so you produce a pdf-file with your figure.
- 7) If you have time, have a look at rec_rel_lin.nb and ca_1D.nb
